

Pfizer is the world's largest research-based biomedical and pharmaceutical company. It has internal expert groups on kidney, liver and vascular injury; internal and external experience identifying and qualifying biomarkers of Drug-Induced Vascular Injury (DIVI), Drug-Induced Liver Injury (DILI), and Drug-Induced Kidney Injury (DIKI). Pfizer is involved in development and application of safety biomarkers to preclinical and clinical studies of drug candidates; development and validation of biomarkers assays; submission of biomarker data to regulatory agencies in support of the new biomarker qualification process (VXDS); collection and submission of safety biomarker data as part of drug submission packages; biostatistics and data analysis.
